5.1.3.3 Proposal presentation (completeness, organization, appearance, etc.)

5.2 The University of Iowa reserves the right to use both primary and secondary Proposers or to otherwise use multiple sources to protect the University of Iowa’s overall interests.

5.3 The Company must not have any unresolved performance issues with the University of Iowa. The Company’s performance as a Vendor, subconsultant or subcontractor in previous University contracts shall be taken into account when evaluating the Company’s submittal for this Request for Proposal. The University may survey other local agencies during the proposal evaluation period to make sure the Company does not have any unresolved or unsatisfactory performance issues. The University reserves the right to reject the Company’s submittal based on its assessment of the Company’s prior performance.

5.4 Financial terms will not be the sole determining factor in the award. To determine the award the University will use a proposal evaluation method that will enable them to award a contract to the Proposer offering services and experience that represents the best overall value to the University.
5.5 Proposal Evaluation Procedures - Proposals will be evaluated individually by a proposal evaluation team (hereinafter referred to as Team) using the “Proposal Evaluation Criteria” as listed above.

The purpose shall be to provide clarification of any aspect of the proposal that is deemed to have a material bearing on arriving at a fair determination of which proposal offers the best overall value.

5.5.3.1 If presentations and/or conference calls have been conducted, representatives for each Proposer deemed to be within the competitive range shall provide a written clarification of any aspect of the solicitation that was requested by one or more Team evaluators. Clarifications may also be issued if a Team member regards such as being necessary to make a fair and reasonable determination of the proposal to accept. In addition, each Vendor deemed to be within the competitive range may be invited to submit a "best and final offer" if such seems appropriate under the clarifications issued to the provisions and specifications of this solicitation. Please note that guidance would also permit the Team to determine that only one proposal is within the "competitive range." If such were to be determined, the Team administrator would then enter into negotiations with the Proposer offering the greatest value proposal in efforts to arrive at a purchase price that is deemed fair and reasonable based on price or cost analysis.

5.6 A Proposer’s submission of a proposal constitutes its acceptance of this evaluation technique and its recognition and acceptance that subjective judgments will be used by the evaluators in the evaluation.
