Campus Planning Committee

August 4, 2008
Meeting Minutes
[Approved]

Members Present: Gregg Oden, Tom Schmidt, Barbara Mooney, Tom Kruckeberg

Members Absent: Mark Young, Alan Peters (relocated to Australia), Bettina Hass, Connie Peterson, Melinda Brocka, Songwei Chen, James O’Hollearn

New Members: Greg Black, Larry Robertson, Jenna Anderson

Others Present: Don Guckert, Rod Lehnertz, Bob Brooks, Larry Wilson, Shawn Albaugh Kleppe, David Ricketts

Call to Order: Gregg Oden called the meeting to order.

Previous Minutes: Minutes of the June 9, 2008, CPC meeting were approved as distributed.

Action Item(s): None

Information Item(s)

Committee Highlights
Don Guckert took a few moments to recognize Gregg Oden in his role as chair of the Campus Planning Committee. Some highlights of his tenure were shared, including the development of the UI Campus Master Plan, the design and construction of Art Building West, and the design phase of the Campus Recreation and Wellness Center. Gregg was presented with a copy of “The University of Iowa – Guide to Campus Architecture.”

Introduction and Welcome to New CPC Members
Introductions of current and new committee members were exchanged. Gregg Oden welcomed the new incoming CPC members and then followed with an overview of the charge and structure of the Campus Planning Committee and subcommittees.

CPC Subcommittee Reports:

Land Use Subcommittee
Did not meet

Design Review Subcommittee
Did not meet

Campus Environment Subcommittee

Campus Exterior Lighting Change to Induction Lighting
A proposal of a pilot program to install efficient lighting systems to improve security and reduce utility expenses was presented. The bulbs would be placed in standard fixtures to test the lighting in certain areas. The lighting suggested in this proposal is induction lighting, a white light, which is not a new technology. The benefits cited are reduced energy cost, reduced maintenance costs, and reduced CO2 and carbon emissions. The initial cost is approximately $100 - $200 more than the conventional lamps, but felt the difference in cost would be made up with the MidAmerican Energy incentive that will be applied for and the resulting energy savings from the lamps.

The subcommittee supported the proposal of this pilot program in the Myrtle Avenue parking lot and others designated by Utilities & Energy Management.

**UI Campus No Smoking Signage Sites**

The subcommittee was updated on the progress of the smoke free campus signing. Signs of various sizes according to the State mandate will be installed at key entry points to campus and buildings, bus shelters, etc. Installation is estimated to be complete before the beginning of the fall semester.

**Landscape Flood Recover Update**

The subcommittee was updated on the effect the flood had on the campus landscape. It was reported that approximately 8 acres on the east side of the river and 14 acres on the west side of the river were affected by the flood. An estimated three weeks would be needed for deconstruction and then the areas would need to be reassessed for damage. Bidding would then need to take place.

Meeting adjourned at 3:00 p.m.
