FM Custodialial Services update July, 2023

Building Coordinators Meeting
July 20, 2023
FM Custodial Services

Custodial Services is comprised of professional employees with a vision to be recognized for our excellence in facility cleanliness, passion for customer service, and strives to be the place where people want to work.

We support the University of Iowa by creating a physical environment that is clean, safe and conducive to learning and research.

Hands on in their new building/schedule
Follow up & Compliance
FM Custodial Services
FM Custodial Training Program

**Trainer Feedback Survey Results:**

- He is confident on the material he teaches for us to learn how to do our job! Really enjoyed this training. Couldn’t ask for a better instructor.
- He made me feel welcomed every day. He answered all of my questions without making me feel some type of way for asking.
- He knew everything about the campus and about the buildings the custodial staff are responsible for cleaning. He was very helpful in answering any questions I had.
- He was very helpful every step of the way. If I asked a question that he did not have an answer to, he emailed someone to get it. He goes above and beyond. I feel that he was one of the best trainers I've had and I would take any other training classes from him if he offered them.
- I'm very confident in the skills that I've learned to perform in this position to the absolute best of my ability.

Questions?
Fire and Life Safety

Facilities Management: Always there, always the best.
Fire and Life Safety: Protecting people, property, and peace of mind.
FLS performs code compliance required services at the required frequencies for multiple assets and systems on campus.

Reporting is provided to state, local, insurance, and other agencies as required.
Example of compliance deficiency reporting

FLS will notify responsible parties of code deficiencies:
- Building Coordinators
- Custodial Managers
- Maintenance Managers
Building Coordinators

If you have a concern about something you see in your building, don’t hesitate to reach out and ask.

- Storage, Electrical Cords, Extinguishers, and Lighting are all common concerns that get overlooked.

- Familiarize yourself with location of exits and extinguishers. Make sure they are not blocked on occasion.
Corrective Calls for Service FY 23

- Asset Failure: 61%
- Dispatch (Alarm/Trouble): 13%
- Disable Service: 20%
- Project: 6%
Any comments or questions?
Attend the Hawkeye on Safety conference and become a safety leader in your workplace and community.
